

Glogster :: How to change the dimensions of your poster

Below you will find an example of the embedding code that you copy and paste from your glogster poster share feature. Be sure to copy the code from the glogster "Share" button at the bottom of your poster (See below). ****Do not** use the "Embed into your page" link, as it will not allow you to change the dimensions.

If you would like to change the size of the poster, see how to do so below. ****Be sure** to keep the same dimension ratio, so it doesn't make your poster look awkward.

```
<embed
src="http://www.glogster.com/flash/flash_loader.swf?ver=1271679371"
flashvars="sl=http://www.glogster.com/flash/glog.swf?ver=1271679371&gi=4550
197&ui=2209932&li=3&fu=http://www.glogster.com/flash/&su=http://www.glog
ster.com/connector/&fn=http://www.glogster.com/fonty/&embed=true&pu=http:
//www.glogster.com/blog-
thumbs/1/4/55/1/4550197_2.jpg?u=ceea228c012d3b4b74bbfe56cf8e3ecc&si=x&
gw=3,8,0&gh=5,1,4" type="application/x-shockwave-flash" wmode="window"
allowScriptAccess="always" allowNetworking="all" allowFullScreen="true"
height="514" width="380"/>
```

Here you can change the dimensions of the glogster window that you choose to embed.
